Broad set of measures, amongst others:

- Though shut-down and general approach towards distance learning, schools were open for kids and students in need
- Intense communication with schools, parents and teachers
- Support by psychological service and youth welfare services to connect to every child
- www.weiterlernen.at – broad network offering (social) support, mobile devices, learning and digital coaches, etc.
- Central procurement for masks, hygiene measures, testing equipment
- Mobile devices and connectivity for students in need
- Distance learning service portal to support schools with communication platforms₂
